

TECH TIP

Your Exclusive Professional Carrying Bag is equipped with straps and buckles to attach two accessory bags (such as the HUDY Starter Box Bag and/or HUDY Transmitter Bag).

1 Unlock the clips of the bag side strap.

2 Open one top buckle.

3 Pass the strap through either the plastic top loop of the accessory bag (comes as stock on HUDY bags as shown) or the top handle (of another bag).

4 Pass the free end of the strap upwards through one of the slots in the top buckle as shown.

5 Pull the strap tight, then close the top buckle.

6 Repeat steps 2-5 to attach another accessory bag to the other strap. With accessory bag(s) in place, reconnect the side strap and adjust as required.
